

Passenger Transportation Systems – PhD course

Course requirements 2022/2023 spring semester

Subject Code: BMEKOKUD021
Lectures(/week): 2 hours lectures
Credit Points: 3
Evaluation: examination
Lecturer: Csaba Csiszár PhD, associate professor

Attendance on classes:

According to the TVSz (study code)

Mid-terms:

First: 19th April 12:15; retake 25th May 16:15

Second: 24th May 12:15; retake 31th May 12:15

scope: lectures on the previous weeks

Up to ONE mid-term can be retaken in the supplementary week.

Evaluation:

Theoretical mid-terms: max. 25 points per mid-term

The mid-semester ‘signature’ (acknowledgement of fulfilment) is obtained if all the midterms are passed. Extra fee according to TVSz (study code) is required in case of retake of mid-term in the supplementary week.

Registration for an exam in the NEPTUN system is required. The way of examination is oral.

(In some cases, the final mark may be proposed/offered. Some possible aspects, which may be considered: points, submission of home assignment before deadline (and acceptance), midterms are passed without retake, cooperative attendance in the lectures. Questions and complains regarding proposed final marks are refused.)

Budapest, February 2023
