

Vehicle mechanics fundamentals Midterm exam I.

information

1. General

The first test of the semester will be held on 3rd of April in the timeslot of the lecture. With the help of this, student can achieve half of the requirements of the subject.

2. Features of the test

The test will be held in a classroom equipped with computers, on Google Forms, therefore every student must have a Google account at that time. Based on the lectures, there will be questions and calculation examples from the practical courses. In case of calculations, students have to submit calculations with hand-written papers, how they got the results. Students have to bring a pen, paper and ID card with themselves. The test lasts 30-40 minutes. Students will get a Form link in an online table (please check Moodle, be prepared with user login).

Classroom: St 121; start at 12:20
