

# Vehicle mechanics fundamentals Midterm exam II.

## *information*

### **1. General**

The second test of the semester will be held on 22nd of May in the timeslot of the lecture. With the help of this, student can achieve second half of the requirements of the subject.

### **2. Features of the test**

The test will be held in classroom equipped with computers, on Google Forms, therefore every student must have Google account at that time. Based on the lectures, there will be questions and examples from the practical courses. In case of calculations, students have to submit calculations with hand-written papers, how they got the results (If there will be any calculations). Students have to bring pen, paper and ID card with themselves. The test lasts 30-40 mins. Students will get Form link in an online table (please check Moodle, be prepared with user login).

Classroom: St 121; start at 12:20

In case of any further question, please do not hesitate to contact me.
