

Vehicle mechanics fundamentals Test 1

access and information

1. General

The first test of the semester will be held on 19th of March in the timeslot of the lecture.

2. Features of the test

The test will be held in ST121 room with computers, on Google Forms, therefore every student must have Google account at that time. Based on the lectures, there will be questions and calculation examples from the practical courses. In case of calculations, students shall submit papers at the end of the test about their hand-written papers and calcs, how they got the results. The test lasts 50 mins, starts at 8:15 and the system records the time when 'Submit' button was pushed. Students will get Form link in an online table, the link of the table will be published on Moodle.

3. Step by step instructions

- a. Open the table
- b. At 8:15 in the table all the rows will appear, every student will have a single row with is ID, the access link to the form, and some information for the tasks. So it is advantageous the note everything from this table, or keep it open during the test.
- c. In the form, first you must fill your email address (Google account needed!), Neptun ID, password (see table), and your name. After that, you can start the test.
- d. Please be aware, that there is no second chance, if you push the submit button at the end, the test is over in that status you submitted.
- e. In case of calculations, students shall submit papers about their hand-written papers, how they got the results.

4. Good to know

- a. Checkbox type task: you will get points, if you mark all the correct answers, but only those.
- b. Calculation tasks: you will get points, if you send the correct answer and on paper the proper way of calculation by handwriting.
- c. No minus points will be given.
- d. Students must bring two A4 sheets, a photo ID, a pen and a calculator (or the university computer's calculator may be used for calculations).

In case of any further question, please do not hesitate to contact me on the email address above.
